

Ayla K10

19x40W LED Moving Head Bee-Eye Wash

Expression in motion, as a field. Independently driven RGB cells with 256³ color mixing, self-recovery closed-loop pan-tilt, and 5-mode strobe: matrix wash built to move as one surface.

Bring color, movement, and visual dimension to the stage with the Ayla K10. Featuring 19 high-output 40W RGBW LEDs, a versatile 4°–60° electronic zoom, and a continuously rotating front lens system, the Ayla K10 transforms powerful wash lighting into a dynamic visual experience.

From broad, atmospheric color washes to tight, concentrated beams and expressive shape effects, the Ayla K10 gives lighting designers the freedom to explore a wider creative palette. Its adjustable color temperature, smooth linear dimming, and high-speed strobe expand its expressive range, making it a versatile choice for concerts, live performances, clubs, entertainment venues, and event productions.

Engineered for professional applications and designed to inspire creative possibilities, the Ayla K10 brings together color, precision, and motion in one expressive lighting instrument.

19x40W LED Moving Head Bee-Eye Wash

SPECIFICATIONS

Light Source	19 × 40 W 4-in-1 LED
Rated Power	≥ 800W
Input Voltage	AC 90–245V, 50/60Hz
Lighting Angle	±8°–50°
Color Mixing	RGB 256×256×256, infinite mixing
Dimming	±10–100% linear
Strobe	1–18 times/sec: regular, lightning, random, fade-in/out modes
Pan (X-axis)	≥ 540°, self-recovery closed-loop, independent linear speed control
Tilt (Y-axis)	≥ 270°, self-recovery closed-loop, independent linear speed control
Control	DMX512, 16CH, master-slave, self-propelled sound control
Positioning	Closed-light positioning, programmable single/group axis reverse
Dimensions	38x26x45cm
Net Weight	14 kg
